

# Why mobile workforce management for fire and ambulance services workforce?

Today's fire and ambulance services workforce needs more flexible ways to access and manage scheduling and other tasks. An automated staffing solution, such as **Kronos Workforce TeleStaff™**, allows managers and end-users to complete scheduling work anywhere, anytime via smartphone, tablet, or laptop.

Mobile access helps drive productivity and engagement, and ensure smoother operations.

## For Managers ...

*Battalion chief, fire captain*

- 🔥 Build and manage schedules and rosters — even on the fly
- 🔥 Fill positions based on qualifications, certification, and availability
- 🔥 Send notifications by phone, text, and email
- 🔥 Set up and manage shift and leave bidding
- 🔥 Access real-time reports for immediate insight

## For End-Users ...

*Firefighter, engineer, EMT*

- 🔥 Access schedules, request time off, swap shifts
- 🔥 Sign up for work and overtime
- 🔥 Manage work notifications
- 🔥 Select and track shift, leave, and overtime bids
- 🔥 Access an array of personalised reports for better access and control

Workforce TeleStaff gives your entire fire or ambulance service workforce the ability to accomplish virtually all scheduling and work tasks on the go on their preferred devices — keeping your workforce in sync and improving coverage, employee morale, and operations.
