Kronos InTouch DX

A reimagined timeclock experience for the modern workforce

Sleek. Ergonomic. Ideal for any workplace.

The ultra-modern Kronos InTouch® DX combines the latest ergonomic features with a rugged, industrial design that stands up to even the toughest work environments. This innovative Kronos® timeclock is easy to install and service, and offers a friendly, intuitive interface that's easy to learn and use.

Its sleek design and slim profile embraces the best of today's consumer electronics including a large, super-responsive touchscreen and optimised viewing angle enabling users to perform tasks quickly and effortlessly.

The InTouch DX is future-ready, so you can take advantage of breakthrough technologies as they become available to keep pace with change and realise maximum value.
